Questions 11-13 provide the opportunity for your section's leadership to communicate successes, challenges, goals, and progress towards meeting those goals. We want to hear from you! Please use the required comment boxes to share your thoughts about your section. In questions 12 and 13, do not feel limited by having spaces indicated for the top three goals. Other goals can be added in the comment box if needed.

Local Section Administration Form - Governance

<p>11. 2011 Chair's report: Please provide a narrative of the past year's activity/successes/challenges:*</p>	<p>As indicated in the Chair-elect's 2011 report, the NESACS had, as usual, a very good year of programming featuring excellent speakers. Topics and speakers were chosen to celebrate the IYC and important topics dealing with energy, cancer prevention and chemical education and celebrating chemistry successes at the high school level (the NESACS' Connections to Chemistry and Education Night when honor high school teachers and students are honored for all their hard work). My2011 Chair Goals were: 1) Work with Malden High School and John d O'Bryant High School with the Science Coaches Program. 2) Establish a Strategic Planning Committee to develop recommendations for the Board leadership. 2011 Section goals 1) Attend the NESACS-German Exchange in Germany, March 2010 2) Prepare plans for the 2011 international year of chemistry.</p> <p>The 2011 year for the NESACS saw the section accomplish a variety of goals. We were able to put on a fabulous NCW and the Connections to Chemistry programs with Bassam Z. Shakhashiri, 2011 President elect, ACS, as an invaluable presence at both of those events. NESACS was fortunate to win a chemluminary award for the German exchange program now in its 11th year. The 2011 Chair and Chair-elect were privileged to go to Germany with 12 our graduate students from the section and it was a very rewarding experience for those students both from and academic perspective (presenting at a scientific meeting) and also experiencing opportunities for work both in academia and industry abroad. Our science cafes and the celebratory events we had for IYC were exceptional. Our Board members continue to be active in providing services to the YCC career fairs and several of our members are career volunteers. The Science Coaches program has been a rewarding experience for me, personally and NESACS' contribution was featured in the Back to School issue of the C&EN issue in 2011. Professor Thomas Gilbert has also been working with the John D. O'Bryant School for a number of years now to provide high school chemistry laboratory experience during the summer for those students.</p> <p>Finally, the Northeastern section participated in the 100 year celebration of the Connecticut Valley section. The Chair, Mark Peczuh was very appreciative of the section's efforts to secure and provide documentation which verified that, at one time, the two sections were incorporated as one local section.</p> <p>Challenges: It is the 2011 chair's opinion that one of the main challenges is one of strategic planning to rethink more effective board function such that the Board can find a bigger, younger pool of volunteers to carry out its mission. The Board has not had a strategic planning meeting for several years now. As a consequence, some of the issues regarding Board organization, succession planning, fund raising etc. have not been addressed in a manner that can allow for adaption to the realities of how chemistry, as practiced today in academia and industry, is having an adverse impact on volunteer efforts and desires of our members.</p>
<p>12. 2011 Chair's goals for the Section</p>	
<p>a. Please list your top 3 goals:</p>	<p>Find a solution or permanent location for the NESACS archived materials</p>
	<p>Establish a 2012 social media plan which would include NESACS Facebook and Twitter</p> <p>Add new, active participation to the Section's leadership core</p>

Local Section Administration Form - Governance

b. What are your concerns and challenges?*	The most serious challenge and concern is getting greater participation in the Section from our 7000+ members. We add between 20-30 new members to our Section each month with little specific outreach to attract them to our Section's activities. There is a small core of members who participate in programs and in governance. We need to establish a "social media plan" to reach out and communicate with the members. We need a varied plan that utilizes many aspects of media to appeal to a wide variety of personalities. Communication, outreach activities, and networking plus webcasting some of our speakers at our monthly meetings may be keys to generating the interest to participate and to be more involved.
13. 2011 Chair-Elect's goals for the Section	
a. Please list your top 3 goals:	Support students; facilitate company visits to campuses; Encourage students engagement with NESACS
	Identify and arrange 2~3 local companies to host NESACS' monthly meetings. Promote external collaboration; Explore the idea of a US-China-Japan medicinal chemistry forum.
b. What are your concerns and challenges?*	The biggest challenge is getting more students and young scientists to be involved. For example, we organize very good medicinal chemistry symposia every year but participation is not great. We plan to set up an executive committee (6~8 people) to get more new ideas, and help to reach out more local scientists to participate events.

Award: International Year of Chemistry 2011

Award Nomination Status: Complete

Question 1	Please give evidence of your involvement in as many of the criteria as possible and highlight the international aspects of each.
Answer	The Northeastern Section kicked off its IYC celebration with a talk by Prof. Peter Mahaffy of King's University College in Edmonton, Alberta, Canada, at its March 10, 2011, monthly meeting. He spoke about "The International Year of Chemistry: Our Life, Our Future." He provided a view of the history and focus of IYC, its global scope, and examples of activities that are designed to highlight the central importance of chemistry in our lives and our future. He also met with members of the faculty and teaching staff in the Department of Chemistry at Boston University over lunch, and provoked them with remarks on "Indigestible, uninteresting, and uninspiring!" Is it time to think "outside the boxes" about teaching and learning general chemistry? Later, he presented a public lecture at Boston University on "Changing Climate, Changing Understanding: Visualizing the Science of Climate Change," where he described the contributions to IYC activities that are being made by the King's Centre for Visualization in Science in Edmonton, of which he is co-director.

Northeastern Northeastern Section Celebrates NCW 2011 at the BCM and MoS with handwashing Event Form 2011

Event - Overview							
Name of the Event*	Northeastern Section Celebrates NCW 2011 at the BCM and MoS with handwashing						
Brief Description*	NESACS held 3 events for NCW 2011. At these events there were a number of hands-on activities. One of these was making your own hand sanitizer. This was accomplished by mixing aloe vera gel with 91% rubbing alcohol and a drop of essential oil. Visitors got to take home a 2 oz bottle of hand sanitizer they made. They learned that the amount of rubbing alcohol present was essential. As extensions, we had a hand washing activity using a glow germ kit and a demo about how soap works.

Event - Narrative and Nomination
Award Sponsor: Community Activities
Award: Most Creative NCW Celebration Using the Yearly Theme
Award Nomination Status: Complete

Question 1	Please estimate the size of the audience reached.
Answer	We reached approximately 1500-2000 individuals throughout the week. This activity was performed at three separate NCW events. Two of these events were at the MoS-Boston and the third was at the Boston Children's Museum. Additionally based on the success of the hand-washing activity during NCW, it was also run at a Science Cafe in December reaching an additional 150 participants.
Question 2	Please list the number of unique sources for each type of publicity listed below, giving details on each source. [Newspaper, television, Radio, Newsletter, Flyers, websites, other (please categorize)]
Answer	Nucleus - our local section newsletter Facebook - Northeastern Section NCW & CCED email blasts - NCW teacher list NPR - Science Friday advertisements Museum of Science website (calender) Boston Children's Museum (facebook) Twitter (publicity chair)
Question 3	Approximately, how many volunteers assisted prior to and during the event? Of those volunteers, approximately what percentage of them were ACS Members?
Answer	We had approximately 150 volunteers who helped throughout the week. Approximately 10-20% of those were ACS members.
Question 4	Approximately, how many volunteers filled each category? [High school Students, College Students, Academia, Industry, other (please categorize)]
Answer	The majority of our volunteers were from academia (90%). These were college students, high school students, and professors. Here is a listing of where our volunteers were from: Brauner Committe, Emmanuel College, Gordon College, Massachusetts Institute of Technology, Northeastern University, Salem State, Sigma-Aldrich, Stonehill College, Suffolk University, Tewksbury Memorial High School, Tufts University, University of Massachusetts-Boston, Whitman Hanson High School.
Question 5	In relation to the geographic region of your section, briefly discuss the geographic reach of your event.
Answer	The three events occurred in Boston. We had visitors to these events from Rhode Island, Central and Western Massachusetts as well as from Southern New Hampshire.
