August 31, 2015

To: Chairs of Departments of Chemistry, Chemical Engineering, Biochemistry & Molecular Biology (Colleges and Universities in the Northeastern Section of the American Chemical Society)

From: Professor Marietta Schwartz, Chair  
Education Committee of the Northeastern Section of the American Chemical Society

Subject: Applications for Grants-in-Aid for Undergraduate Researchers to Attend the National Meeting of the American Chemical Society, San Diego, California, March 13-17, 2016

I am pleased to announce the continuation of the Northeastern ACS Section Grants-in-Aid program to assist undergraduates to attend the spring National ACS Meeting and present a paper on their research at the Undergraduate Research Poster Session. The 251st National Meeting will be held in San Diego, California, March 13-17, 2016.

Grants-in-Aid of \$350 will be awarded to each of four undergraduates who are enrolled in the Chemistry, Chemical Engineering, Biochemistry or Molecular Biology Departments in the colleges and universities within the Northeastern Section. One condition of the Grants-in-Aid is that the award must be matched, at a minimum, by the institution.

Application forms may be obtained from the NESACS web site at <http://www.nesacs.org>. I will be happy to answer any questions you or your students and faculty might have about the Grants-in-Aid program or the application form. I can be reached via email at [marietta.schwartz@umb.edu](mailto:marietta.schwartz@umb.edu).

Enclosed are announcements of the Grants-in-Aid program and the Undergraduate Research Poster Session for you to post and distribute in your Department. I thank you for your help in making the activities of the Section known to your students.

The deadline for **receipt** of completed applications for the Grants-in-Aid is **October 2, 2015**. Applicants will be notified of the results by e-mail on October 15, 2015. Abstracts for the Undergraduate Research Poster Session must be received **by electronic transmission** at ACS National Headquarters by **October 26, 2015** (11:59 pm EST).

Completed Grants-in-Aid applications are to be sent to:

Professor Marietta Schwartz  
Department of Chemistry  
University of Massachusetts Boston  
100 Morrissey Boulevard  
Boston, MA 02125-3393
